

Limited English Proficiency Plan

Name Grantee:	Upshur County
Community Population:	40,096
LEP population:	776 (2.1%)
Languages spoken by more than 5% of population per ACS:	N/A

Program activities to be accessible to LEP persons:	
<input type="checkbox"/>	Public Notices and hearings regarding applications for grant funding, amendments to project activities, and completion of grant-funded project
<input type="checkbox"/>	Publications regarding TxCDBG application, grievance procedures, <i>complaint procedures, complaint procedures, answers to complaints, notices, notices of rights and disciplinary action</i> , and other vital hearings, documents, and program requirements
<input type="checkbox"/>	Other program documents: _____

Resources available to Grant Recipient:	
<input type="checkbox"/>	Translation services: _____
<input type="checkbox"/>	Interpreter services: _____
<input type="checkbox"/>	Other resources: _____

SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2011-2015 American Community Survey 5-Year Estimates

Note: This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Tell us what you think. Provide feedback to help make American Community Survey data more useful for you.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Upshur County, Texas			
	Estimate	Margin of Error	Percent	Percent Margin of Error
LANGUAGE SPOKEN AT HOME				
Population 5 years and over	37,536	+/-60	37,536	(X)
English only	35,257	+/-278	93.9%	+/-0.7
Language other than English	2,279	+/-281	6.1%	+/-0.7
Speak English less than "very well"	776	+/-137	2.1%	+/-0.4
Spanish	1,957	+/-215	5.2%	+/-0.6
Speak English less than "very well"	738	+/-135	2.0%	+/-0.4
Other Indo-European languages	186	+/-118	0.5%	+/-0.3
Speak English less than "very well"	23	+/-35	0.1%	+/-0.1
Asian and Pacific Islander languages	125	+/-75	0.3%	+/-0.2
Speak English less than "very well"	15	+/-23	0.0%	+/-0.1
Other languages	11	+/-17	0.0%	+/-0.1
Speak English less than "very well"	0	+/-27	0.0%	+/-0.1
ANCESTRY				
Total population	40,096	****	40,096	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Fertility data are not available for certain geographic areas due to problems with data collection. See Errata Note #92 for details.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes when using multi-year data containing data from 2013. For more information, see: Language User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2011-2015 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2011-2015 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Public Service Announcement: Fair Housing, It's the Law

To promote fair housing practices, Upshur County encourages potential homeowners and renters to be aware of their rights under the National Fair Housing Law.

Title VIII of the Civil Rights Act of 1968, as amended, prohibits discrimination against any person on the basis of race, color, religion, sex, disability, familial status or national origin in the sale or rental of units in the housing market.

For more information on fair housing or to report possible fair housing discrimination, call the Texas Workforce Commission at (888) 452-4778 or (512) 463-2642 TTY: 512-371-7473.

TxCDBG INITIAL ACQUISITION REPORT

A600

Grant Recipient Name: Contract Number: Region:

This form must be submitted prior to release of any contract construction funds. This form must be resubmitted if the need for additional acquisition not previously reported is required.

1. Is acquisition of real property (including acquisition already completed) required to complete the project described in the TxCDBG contract performance statement. (Answer **Yes** or **No**):

No, acquisition activity is not required.

All property to be used for this project is owned by the Grant Recipient or participating entity (e.g. WSC) and was NOT acquired specifically for this project.

Printed Name Title

Signature of Chief Local Official Date

Please note that complete acquisition records remain subject to compliance review during interim and close-out monitoring.
