**Subject:** Project

Mr. Dolle,

After going with you to the rock building to look at anything that may be of use to the county, I can safely say that all of the items inside that room are virtually of NO VALUE and we believe that you would have a difficult time disposing of it through any kind of auction. We also have a few items located inside the IT building that have been on hold for auction, but those items are really just junk and again, you would have a hard time disposing through any kind of auction.

Thank you,

**Erin Wade**
